

## Conference Invitation

Dear Colleagues,

Student learning needs are altering dramatically because of a technological progress that changes our society.

Are teachers digitally ready to handle a fast changing classroom reality?

Please join us for **an interactive, in-person, international conference on strengthening teachers' digital readiness** for a lifetime English language education. This meeting is a culmination of EngLife, our Erasmus+ Strategic Partnership. We will:

- Discuss trends in language education and the role of technology therein;
- Showcase our free tools in a highly interactive workshop;
- Ask for your opinion on policy recommendations for language learning of teenagers.

Come and experience tools to increase teachers' digital readiness to work with today's students. Come to experience EngLife.

**Title:** EngLife: Teaching English for the Future  
**Location:** CLV LO im. Bohaterok Powstania Warszawskiego  
ul. Żywnego 25, 02-701 Warsaw, Poland  
**Date:** 15/06/2023 (Thursday)
